## LAMINATES PREMIUM CAST

### 3D

#### FULL WRAPS AND WALL WRAPS

#### LONG-TERM

These laminates are ideal to protect your digital prints applied on a vehicle. Combined with **HX190WG2** or **THE190EVO** (see page 79 & 80), they offer a 80 to 100-micron composite, which is easier to apply and remove than a non-laminated printed film.

Laminates recommended for the **100 SERIES** (see page 80, or for reinforced products, see page 94).
